

# MAK EURO VENTI

# “MAK Euro Venti” Plant

Since its launch in 2022, the MAK Euro Venti Plant has been dedicated to producing top-quality steel ventilation ducts that adhere to EU standards. The plant boasts cutting-edge semi- and fully automatic equipment, placing it at the forefront of industry technology. With a focus on precision and efficiency, we deliver high-quality ventilation ducts that meet rigorous international standards, ensuring optimal performance and customer satisfaction.

# Our technology

At the MAK Euro Venti Plant, we have partnered with renowned machinery manufacturers SPIRO INTERNATIONAL from Switzerland and SCHRODER from Germany. With their cutting-edge equipment, we are fully equipped to deliver top-quality steel ventilation ducts efficiently and with utmost precision.

- ✓ Automatic equipment
- ✓ Reliable and continuous plant operation
- ✓ High productivity
- ✓ No human error
- ✓ Minimal waste

# 8 advantages

- ✓ EU standard compliance
- ✓ No air leakage
- ✓ Low noise level
- ✓ Long lasting
- ✓ Moisture resistant
- ✓ Attractive design
- ✓ Accurate dimensions
- ✓ Wide size ranges

# Standards

The MAK Euro Venti Plant meets the EU standards for strength, firmness, pressure capacity, sealing, and accessories of ventilation pipes. Additionally, our plant operates in accordance with international quality standards ISO for management and the environment.

## 2 EN

# Featured projects

# Highlight numbers

Average daily indoor  
time spent by people:

**21.5 HOURS**

Indoor air pollutants can be

**2-5 TIMES**

higher than outdoor levels

Being in a damp and moldy environment  
increases the risk of developing asthma by

**40%**

In 2020, household air pollution  
was responsible for an estimated

**3.2 MILLION**  
deaths per year.

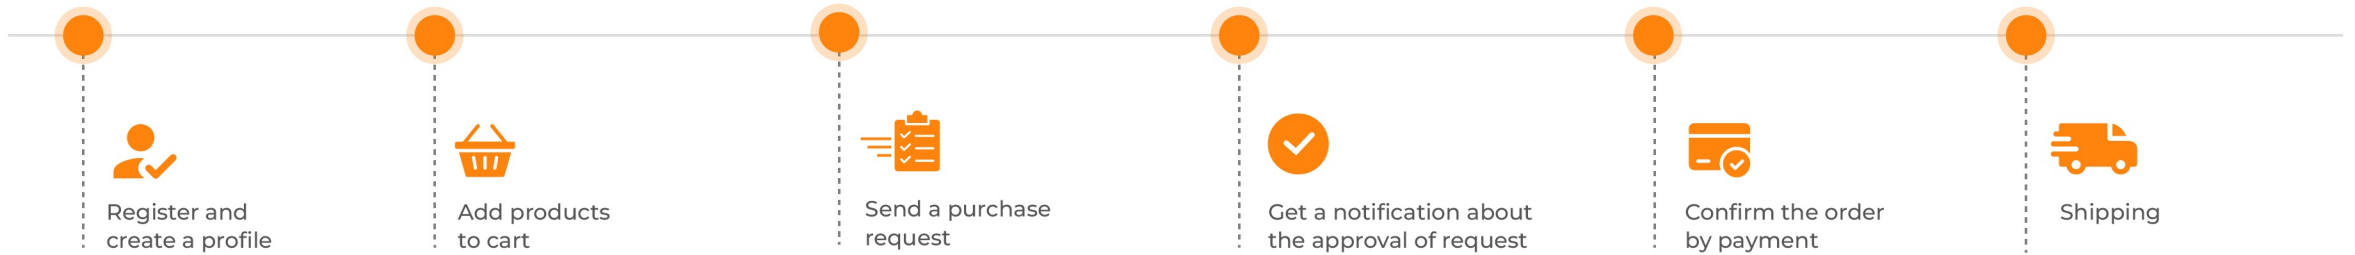

Indoor air  
pollution is ranked as one of

**THE TOP 5**

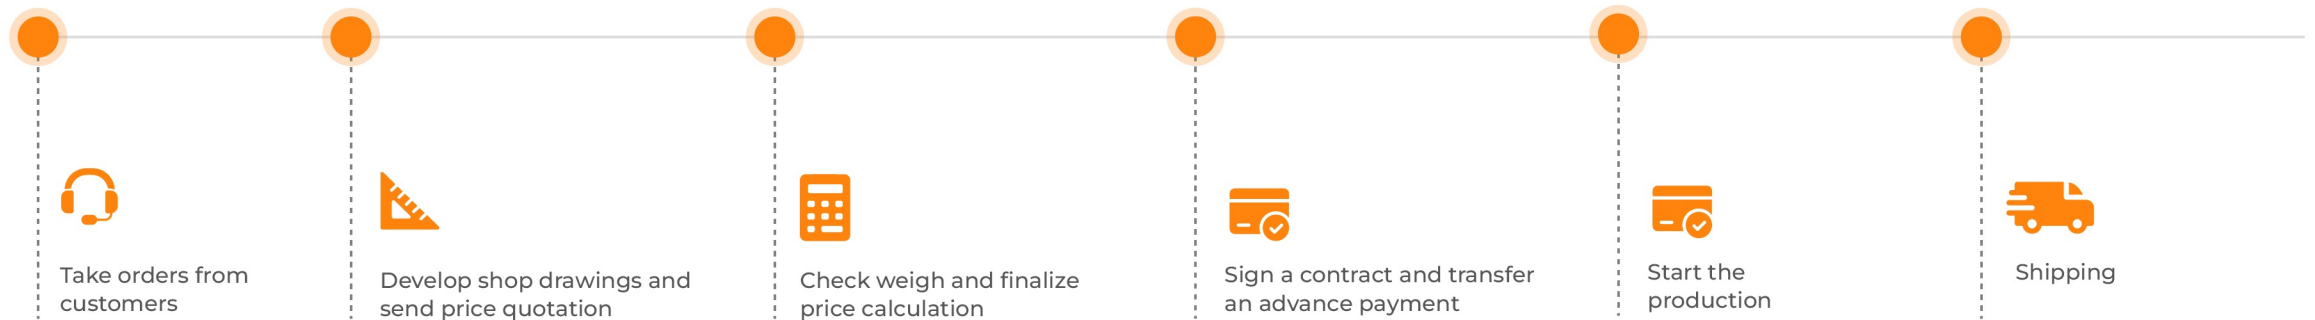

environmental risks to public health by the EPA.

# Procurement process

## Order through MAKBM app

## Order by phone

## "MAK Euro Venti" plant address

Sergelen Soum, Tuv Province 47 km from Ulaanbaatar

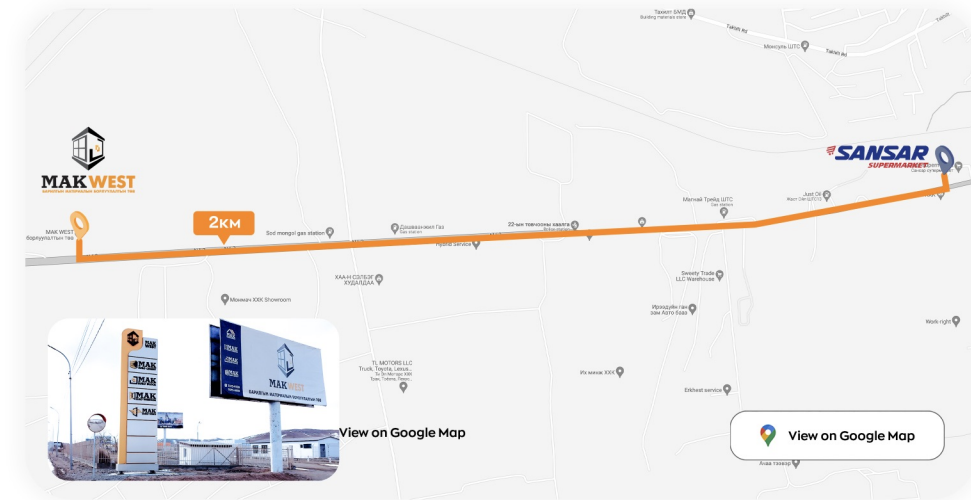

## "MAK EAST" building materials store

South east of central railway repair station

## "MAK WEST" building materials store

Along the bureau 22 road, 2 km from Sansar supermarket
